AIRPUR® SPRAY

Odor remover for air conditioning circuits

Properties:

AIRPUR® Spray is a product specially formulated to eliminate bad odors of the fermentation produced by metabolites and micro-organisms lodged in air pipes. Its low toxicity level and high efficiency makes it an essential product in all those places where air conditioning has been installed. **AIRPUR® Spray** is a sanitizing environment product.

Applications & instruction for use:

It is sprayed directly on areas that are sources of odor. In air conditioners clean the circuit with our **AIRNET® Spray** cleaning product. Once the circuit clean **AIRPUR® Spray** applied by spraying until saturation. Start the conditioner group to distribute the product well. Applicable to sanitize environments air conditioning, drains circuits, etc.

In air conditioners spray the front and top Split area through which the air (to saturation). At a distance of 15/20 cm. Do not spray on electrical and electronic areas.

Type of packaging:

400 ml spray

Physical Properties:

Appearance - Spray

Colour - Light

Odour - Lightly Scented

Weight - Min. 426 gr. / Max. 436 gr.

pH 1% - Slightly acid

Qualitative Composition:

- Metal oleates
- Quaternary ammonium salts
- Alcohol
